1. INTRODUCTION

1.1. Overview

Rwanda Revenue Authority (RRA), since 2013, has embarked on the vast ambitious of digitalizing the sales invoices information through the usage of Electronic Billing Machine (EBM) System. This process started with the Value Added Tax (VAT) registered taxpayers and RRA has embarked on the extension of EBM usage to non-VAT registered taxpayers effective from October 2020.

In order to meet taxpayer's specific needs due to business operations on one hand and the efforts to reduce the EBM compliance cost, RRA has developed various EBM solutions that fit business operations. Even though some solutions have been developed exclusively for a given category of taxpayers, taxpayers may have the option to choose the EBM solution that fits better their business operations among the solutions below detailed.

1.2. Goal of the training manual

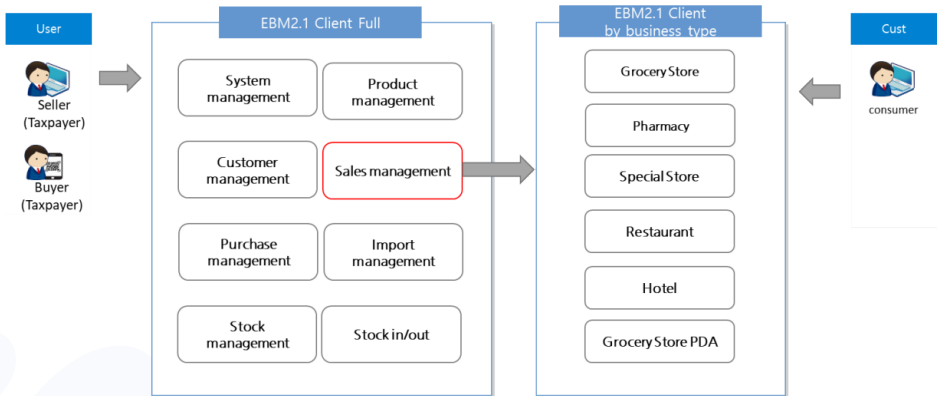

This training manual aims to help taxpayers to learn how to use Electronic Billing Machine Version 2.1 (EBM2.1).

1.3. Eligible taxpayers for EBM Software

This solution is specifically designed for Large, Medium and Small Taxpayers, both VAT and non- VAT registered taxpayers, as well as other taxpayers who may apply for it. It is installed on Computing devices such as Laptop, Desktop, Tablets, PDA or POS.

1.4. SYSTEM

This program is made of two components. EBM Management Module, which offers the interfaces to manage stock and transactions and Templet part divided by business type for various types of sales management. The structure below shows how the system is constructed.

1.5. Management module

Program Main Menu

| Main Function | Information |
|---------------------|---|
| Environments | It is for setting to use Management Module. There are user management system, password change, system setting, etc. |
| Item Management | Users can manage their own items. They can type item information, assign an item code and set initial stock and unit price. |
| Customer Management | Users can register and manage customers' information (contact) can be used in sale or purchase items. |
| Sales Management | Users can manage their own sales and print sale receipts. |
| Purchase Management | Users can manage their purchase information. |
| Import Management | Users can check imported items, assign item code and confirm them.. |
| Stock Management | Users can check a state of In/Out through transaction. Also they can manage stock. |

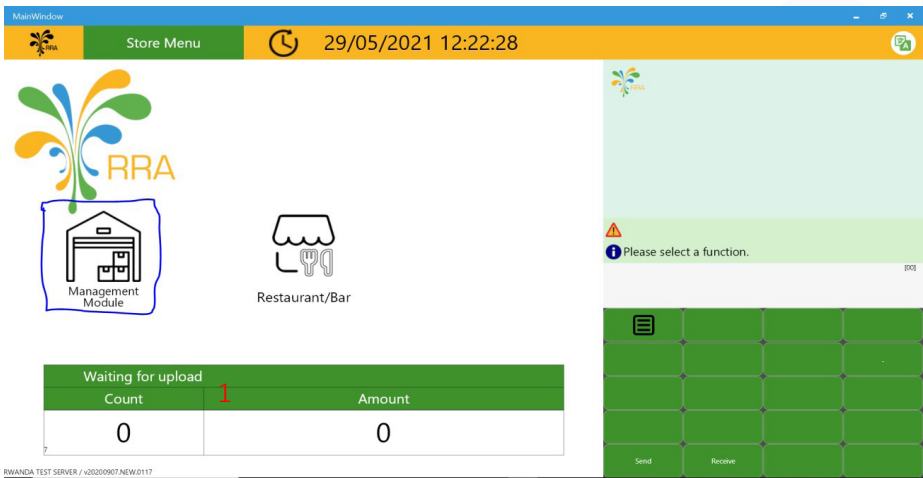

2. HOW TO USE EBM SOFTWARE / EBM V2.1

2.1. Program start

When users turn on the computing device after receiving EBM2.1 client system, users can see icon on the display. Double click the icon for executing the program.

2.2. Login

When the program starts, you can see the interface display like following.

You login by clicking on Management Module as cycled in blue color, and the interface below appears:

EBM2.1 Client

TIN Number

User ID

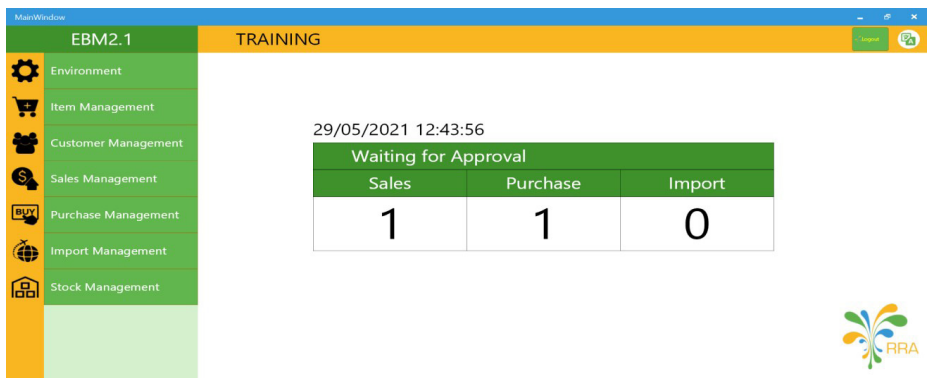

Password

- 1) Check whether TIN is printed or not.
- 2) Type User ID&Password and click  button.
- 3) If users don't want to use the system, touch the  or click on close button
- 4) If typed values are not available, users cannot use the system

2.3. Program menu

After log in, you can see the following display.

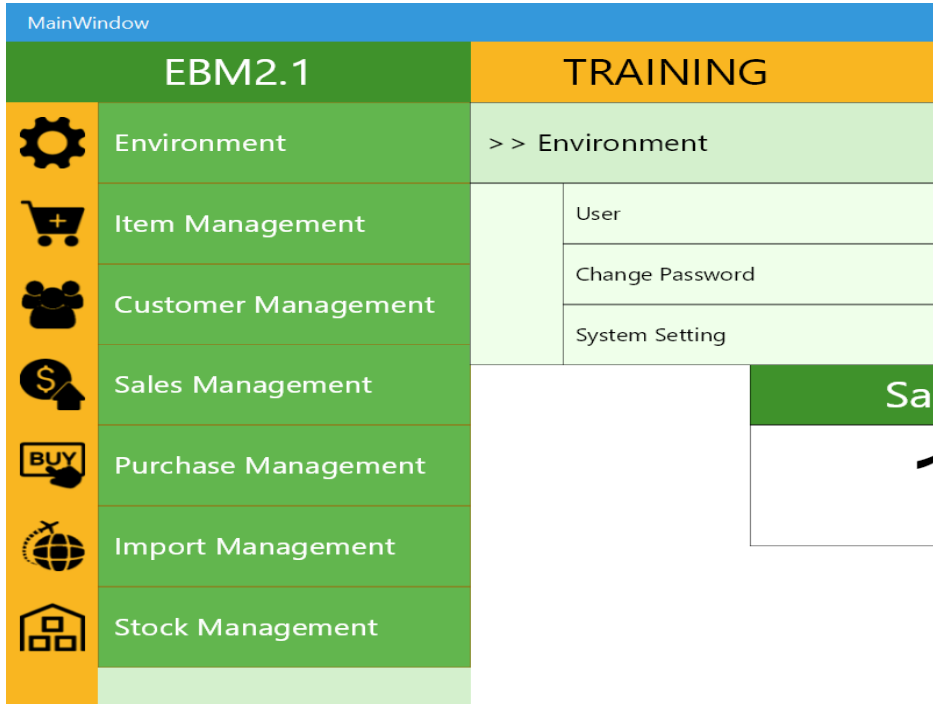

The screenshot shows the main window of the EBM2.1 Client. The title bar reads 'Main Window'. The window is divided into a header area with 'EBM2.1' and 'TRAINING', and a main content area. On the left, there is a vertical menu with the following items: Environment, Item Management, Customer Management, Sales Management, Purchase Management, Import Management, and Stock Management. The main content area displays the date and time '29/05/2021 12:43:56' and a table titled 'Waiting for Approval'.

| Waiting for Approval | | |
|----------------------|----------|--------|
| Sales | Purchase | Import |
| 1 | 1 | 0 |

2.4. Environment

They are like setting to use the system. Within environment, you can manage users, change password and manage some setting.

When you click  Environment , you can see sub menus like above, they provide the following functions:

- 1) **User Management:** Manage user who can use this program. (Specific explanation in part 2.4.1 User management.)
- 2) **Change Password:** Users can change their passwords. (Specific explanation in part 2.4.2 change password.)
- 3) **System Setting:** Set the values for default. (Specific explanation in part 2.5.3 system setting.)

2.4.1. User Management

The display below is about user management

| User ID | User Name | Role | Register Date | Phone Number | Address | Usable |
|------------|----------------|-------|---------------------|--------------|---------|--------|
| 0788700173 | CYUBAHIRO TOM | admin | 06-02-2024 15:50:20 | | | Y |
| Dusabe | Dusabe Oliva | | 25-12-2023 11:57:59 | | | Y |
| admin | CYUBAHIRO Iida | | 15-11-2023 11:36:17 | | | Y |

The following are about adding new users and modifying or deleting the existing user's information.

1) Add a new user

- Click  button.
- All fields become blank at the top of display.
- Fill the blanks with right information.
- Click  button for saving information.

2) Change pre-registered users

- At the bottom of screen, search and choose users you want to modify.
- Click  button and change field information you want to change.

2.4.2. Password change

Please change the password periodically for security purpose (Recommended once per month)

- Type current password
- Type new password to change your password.
- Re type new password
- The new password will be accepted when user does log in next time. Please do not forget your new password.

2.4.3. System setting

Use system-setting menu for checking values associated to company information, system condition etc.

| | | | |
|----------------------|------------------------|------------------|-----------------|
| Company Name | Test Darius | Branch Name | Gakinjro GISOZI |
| Business Activity | | Manager Name | Aime |
| Email Address | dusabeoliver@gmail.com | Address | MASAKA |
| Phone No | 0789375468 | | |
| PORT or Printer name | USB | More Information | |
| Baud Rate | 19200 | TIN Number | 999999017 |

- **Bank:** Type customer's main bank.
- **Account:** Type bank account numbers.
- **Depositor:** Type a name of a depositor.
- **Phone1, Phone2, Fax:** Type each phone number and fax number.
- **Address:** Type an address.
- **Remark:** Type remarks.
- **Use:** Click one between customer use or no use. (If you click No use, you cannot choose a customer in sale management.)

Note:

- 1) Has no Tin customers are these who do not have TIN number to register them use their Telephone in place of TIN, removing the 0, example, for 0788700173 use 788700173. Put their personal name in place of Name, others are the same as Has Tin customers.
- 2) For taxpayer who do not have neither TIN nor telephone, use 000000000 in place of TIN, others are the same like Has no Tin.

The followings are about registration of new customer and delete or modification of pre-registered customer.

1) Registration of a new customer

- Click  button
- At Type, choose a type of customer. If a customer is a corporation, type 'Has TIN', if he/she is an individual, type an 'Has no Tin'.
- Click  button for save after type all information.

2) Modify pre-registered customer information.

- Choose a customer you want to change at the bottom of screen.

| Customer Code | Customer Name | Use | Search | | | | | |
|---------------|---------------|-------------|-----------|-------------|--------------------|-------------|--------|-----|
| 999991126 | | | | | | | | |
| ID | Type | Name | Delegator | Nationality | Email | Phone1 | Phone2 | FAX |
| 999991126 | Individual | Jackson lee | | | air_crew@gmail.com | 01071660000 | | |

- At the top of screen, select a list you want to change and change it.

| | | | | | |
|---------|----------------|-------------|--------------------|-----------|-------------|
| Type | Individual | Delegator | Jackson lee | Phone 1 | 01071660000 |
| TIN | 999991126 | Nationality | RWANDA | Phone 2 | |
| Name | Jackson lee | E-Mail | air_crew@gmail.com | FAX NO. | 7777777777 |
| Bank | RWANDA BANK | Account | 000000-00-000000 | Depositor | Jackson lee |
| Address | RWANDA, KIGALI | Remark | N/A | Use | Use |
| Group | Default | | | | |

- When you complete list change, save it by click  button.

2.7. Sales Management

When you click Sales management, you can see the following screen.

The screenshot shows the Sales Management interface. At the top, there's a header with 'Sales Management' and buttons for 'Export VAT', 'Export', and 'Close'. Below the header, there's a summary section with 'Total.VAT' (1,525.42) and 'Total' (10,000.00). A date range is set from 4/6/2022 to 4/13/2022. There are buttons for 'Search', 'Z Report', and 'Sales Rpt'. The main table shows one row with status 'Wait for Approval', invoice ID 37, customer JATHIN, sale date 13-04-2022, VAT 1,525.42, total amount 10,000.00, and sales amount 10,000.00. Below this is a 'Detail list' section with buttons for '+ New', 'Detail', 'Modify', and 'Delete'. A table below shows columns for 'Seq', 'Item Code', 'Item Name', 'Quantity', 'Unit Price', 'Amount', 'Sales Amount', and 'VAT'. A red hexagon labeled '1' is placed over the summary table, and another red hexagon labeled '2' is placed over the detail list table.

Sales management menu is made of two screens. At the top of screen, there is sales information. Detail information (list) is at the bottom of screen. The followings show more detail about sales information part.

The screenshot shows the Sales Management interface with a list of sales information. The header includes 'Sales Management' and buttons for 'Export' and 'Close'. The summary section shows 'Total.VAT' (1,624,423.73) and 'Total' (10,649,000.00). A date range is set from 2019-12-28 to 2019-12-28. There are buttons for 'Search', 'Z Report', and 'Sales Rpt'. The main table shows four rows with status 'Wait for Approval', invoice IDs 5, 6, 7, and 8, customer 'jackson lee', sale date 20191228, VAT values, total amounts, and sales amounts. A red box labeled '1' highlights the summary section, and another red box labeled '2' highlights the list of sales information.

1. This is for check sale list. Default shows today input information

2. This is for check sale list. Default shows today input information

It means that you register sales but any item is not released. If you want to release an item, click the Wait for Approval status of sales information and process the release data. After then status become approved.

If customer request cancel the pre-registered sales, status will become cancel requested. If you refund it, it will be refunded. In addition, if you choose RollBack except Refund, it become Approved. Please notice that Status can be changed according to transaction type.

The followings are about how to register new sales information, how to release item and how to cancel the sales information customer request to cancel.

1) Register new sales information.

- Click  button.

- If you make a mistake, choose the list you want to delete and click the  button. However, it is only approved when it is in Wait status. If the list is treated as the received item or is in requested cancel, you cannot delete it.

2.9. Stock Management

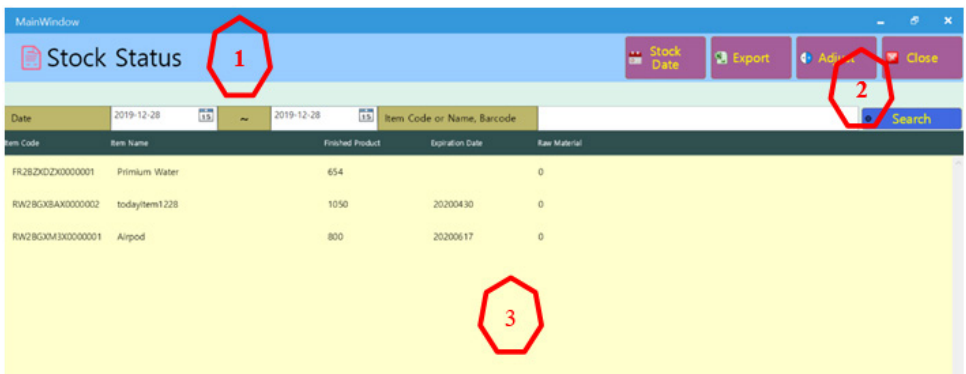

When you click the stock management, you can see the three tabs. The followings explain them.

2.9.1. Opening / Closing stock

- 1) The part indicated by 1 shows each item in/out status for specific period.
- 2) Number 2 indicates the space for search of stock status. A period is basically a month. You can set the period you want to search.
- 3) Number 3 shows searched contents. Search stock with Item Code, Name, barcode. You can see initial stock, final stock, current stock, item price, and total price calculated from the amount of an item you have.

2.9.2. Stock Status

- 1) Number 1 shows each item current stock status.
- 2) Number 2 is for search. You can search item you want to check its stock. Basically, you can search all item.
- 3) Number 3 shows that you can see each item stock status

2.9.3. Stock Management and Movement

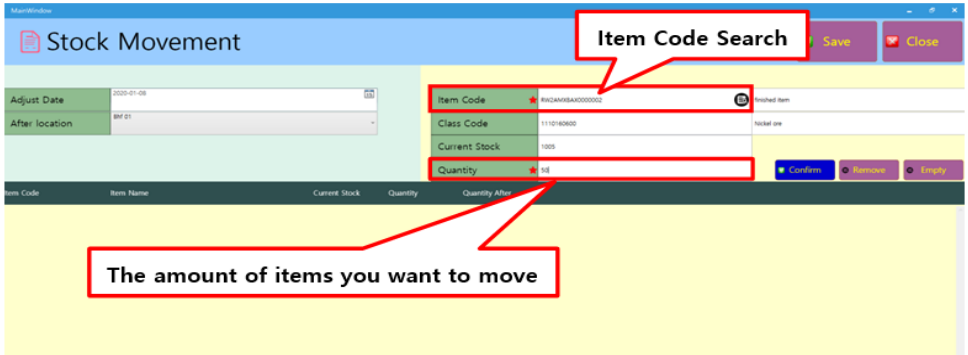

Unwillingly you need to adjust stock because of damage, error, theft, lost etc. Then you can use Stock adjustment. Also sometimes, there is stock movement. In these cases, click the stock list you want to adjust or move and click the button at the top of screen.
