1. INTRODUCTION

Pursuant to the provisions of article 17 Law n° 020/2023 of 31/03/2023 on tax procedures,, a person who carries out any taxable activity must issue an invoice generated by an electronic invoicing system certified by Rwanda Revenue Authority (RRA). EBM mobile App has been adopted by RRA in order to implement the program of EBM for all.

1.1. Target Group

This user guide is meant for all Taxpayers who want to learn how to use EBM Mobile Application.

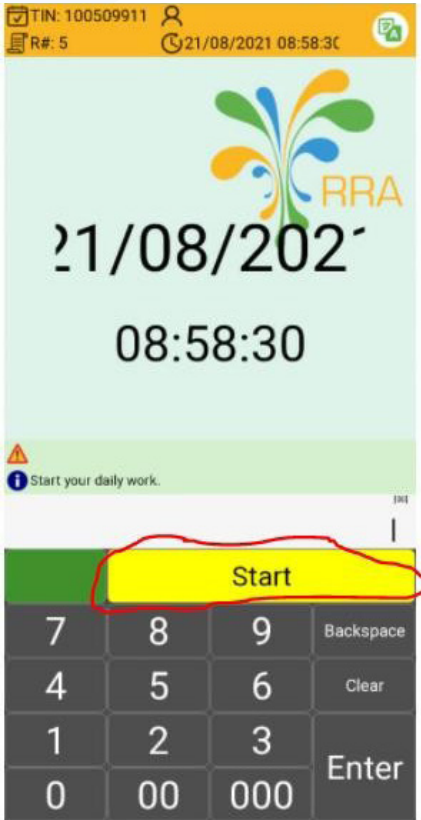

2. HOW TO USE EBM MOBILE APPLICATION.

Execute the EBM2x Launcher program by clicking on the icon below found on the screen of your telephone of PDA.

Click on start button to start a day

Click on Open

Get ready for EBM use. Click on **Open** or **Enter**.

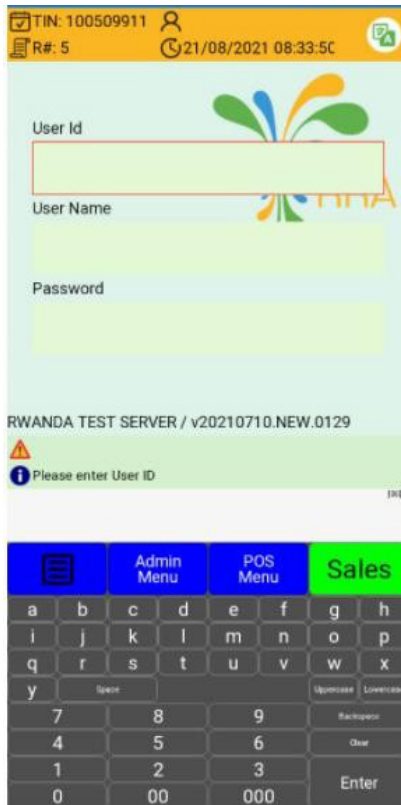

After clicking on open, the main screen with the sign in on menu appears.

You can sign in:

- a) Admin menu
- b) POS Menu
- c) Sales

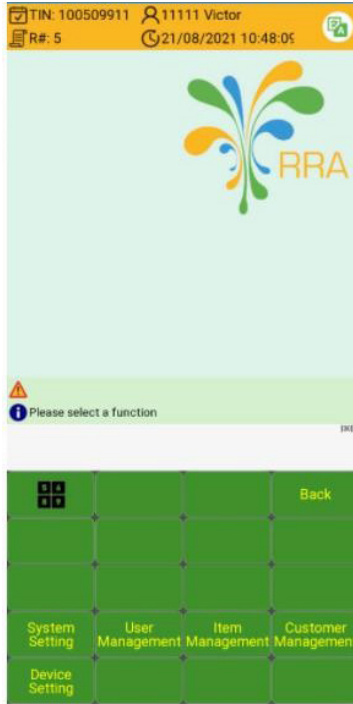

You use the same username and Password to login to all these three (3) menus. In this user guide, we will use 11111 as User ID and 11111 as Password. Below is a screen showing the three menus after opening.

Note: Username and password differ from one taxpayer to another

3. SIGN IN ON ADMIN MENU

Once you have logged-in as Admin, you see this page, which shows User Management, System setting, Device Setting, Item management and customer Management.

3.1. System setting

By clicking on system setting Menu, the screen below appears:

System setting		Save	Close
Company Name	BEAR SARL		
Business Activity	test		
Email Address	info@rra.gov.rw		
Phone No	0783104425		
Branch Name	MUHIMA		
Manager Name	DANIEL		
Address	KIGALI CITY NYARUGENGE		
Paper size	80mm		
More Information			
TIN Number	100509911		
SDC ID	SDC010000295		
Branch Code	00		
MRC No.	WIS01017624		
Data Changed	03082021 04:42		
VAT Flag	Non VAT		

With system setting, you can change some information, which appears on the receipts. Some information cannot allow the changes without RRA permission.

The information which can be changed is:

- a) Email
- b) Telephone
- c) Address

And Printer which can be 80 mm or 58 mm.

After modification you have to click on save for changes to take effect.

3.2. User Management

The user Management Menu is used to create new EBM user or change some information of created users.

TIN: 100509911 11111 Victor		R#: 5	21/08/2021 11:06	EA	
User		New	Query	Save	Back
User Code	<input type="text"/>				
User Name	<input type="text"/>				
Password	<input type="text"/>				
Tel No	<input type="text"/>				
Permission	<input type="text"/>				

a) Program information

Register a new user

b) How to do it

Fill in the blank space in User Code / User Name / Password / Tel No / Permission and click [Save] button.

c) Others

After typing User Code and clicking [User Code] button, you can check information of User Code you typed.

3.3. Item Management

This menu is used to create new items or edit already existing items. Once you click on the item management menu, the screen below appears:

The screenshot shows a mobile application interface for item management. At the top, there is a yellow header bar containing user information: TIN: 10050991, 11111 Victor, R#: 5, and the date/time 21/08/2021 11:22. Below the header, there are four green buttons: New, Query, Save, and Back. The main form is titled 'Item' and contains several input fields: Item Code, Barcode, Item Name, Sale Price (with a value of 0), Beginning Stock (with a value of 0), Class Code, Class Name, Origin, Pkg Unit, ItemType, Qty Unit, and TaxType. Each field has a small circular icon to its right, likely for clearing the field.

1) Program Information

Register a new item or download pre-registered item information.

2) How to do it

- Fill in the blank space in Bar Code / Item Name / Sale Price / Beginning Stock / Class Name.
- Choose Pkg Unit / Item Type / Qty Unit / Tax Type
- Click the button of Class Code and Origin and type the right value of each category.
- Click [NEW] button of Item Code and create Item Code.
- Click [Save] button to save them.

3) Others

- When you click [NEW] button at the top of page right after doing item management, you can register another item continuously
- When you click on [QUERY] button also at the top of the page, you find the list of items created.

3.4. Customer management

This menu is used to create new customers. Once you click on customer management menu, you find the screen below:

TIN: 99999901 12345 admin
R#: 3 07/02/2024 10:04

Customer

New Query Save Back

Type
HAS TIN

TIN Code

Cust Name

Phone num

E-Mail

1) Program Information

Register new customer or check registered customer's information.

2) How to use

- Choose a type of customer (Has TIN / Has no TIN).
- Fill in the blank space in TIN Code / Cust Name / Phone Number / E- Mail.
- Click [Save]

3) Others

- When you click [NEW] at the top of the page, right after doing item management, you can register another item continuously.
- Use [QUERY] and type customer's TIN to find his / her name.

3.5. Device Management

Once you click on the Device Management, you find the screen below:

Device setting	
TIN	100509911
BHF	00
PORT or Printer name	
Baud Rate	19200
Paper size	80mm
LocationType	English
OfflineDays	7
OfflineAmount	100,000,000

Device Management is used to set the printer.

- a) On PORT or Printer name, type: USB, if the printer uses USB.
- b) On the Baud Rate, choose the Maximum, which is 115200.
- c) For the printer size, choose 80 Or 58 mm.

4. SIGN IN ON POS MENU

Once you click on POS menu, the screen below will appear.

The points to be discussed are:

- a) Reserve Fund
- b) Intermediate Deposit
- c) End of Day
- d) Sales report
- e) Z Report

4.1. Reserve Fund

The reserve fund is used to tell the cashier the amount of money before the store was opened.

TIN: 100509911 R# 5 11111 Victor 21/08/2021 12:28:20

Reserve Fund

Kinds	Quantity	Total
5,000	9	45,000
2,000	10	20,000
1,000	0	0
500	50	25,000
100	0	0
50	0	0
20	0	0
10	0	0
5	0	0
Total :		90,000

Please enter a quantity of 1,000RWF

Up	Down	Back	Confirm
7	8	9	Backspace
4	5	6	Clear
1	2	3	Enter
0	00	000	

a) Program information

Register reserved fund for change before store is open.

b) How to do it

Type the quantity of each currency unit, considering total reserved fund and click the [Enter] button.

After completing reserved fund typing, complete reserved fund management by clicking [Confirm] button.

4.2. Intermediate Deposit

Use it when you want to withdraw cash from a cash container, which is for deposit before the end of work.

Kinds	Quantity	Total
5,000	0	0
2,000	9	18,000
1,000	15	15,000
500	89	44,500
100	3000	300,000
50	0	0
20	0	0
10	0	0
5	0	0
Total:		377,500

Please enter a quantity of 50RWF

Up	Down	Back	Confirm
7	8	9	Backspace
4	5	6	Clear
1	2	3	Enter
0	00	000	

1) How to do it

- Type the amount (quantity) of cash for deposit and click the [Enter] button.
- After typing deposit is done, click the [Confirm] button to confirm the intermediate deposit.

4.3. End of Day

At the end of sales using POS, calculate whole sales.

The screenshot shows the 'End of Day' screen with the following data:

Kinds	Quantity	Total
5,000	100	500,000
2,000	15	30,000
1,000	74	74,000
500	0	0
100	0	0
50	0	0
20	0	0
10	0	0
5	0	0
Total:		604,000

Below the table, there is a warning message: "Please enter a quantity of 500RWF". At the bottom, there is a numeric keypad with buttons for Up, Down, Back, Confirm, 7-9, 4-6, 1-3, 0, 00, 000, Backspace, Clear, and Enter.

1) How to Do it

- Type the amount (quantity) of each currency (Kinds) and click enter.
- After typing, click [Confirm] button.
- After completing a day final report, click [Confirm] button.

4.4. Sales report

Within sales report, you can check each item sales at date you set.

The screenshot shows the 'Sales report' screen with the following data:

TIN: 10050991 Victor
R#: 6
Sales Date: 8/21/2021

ss Code/Na	uantit	Amount
50151Soy milk	9	3,100.00
85316Diagnosis of	9	2,700.00

The table is circled in red. There are 'Query' and 'Back' buttons next to the date field.

How to do it?

- Set the date when you want to check report.
- Search sales report by clicking [Query] button.

You will find all items sold on that specific date, with the quantity and Total amount on each item.

4.5. Z Report

Z report is used to check the transactions made at a specific date

TIN: 10050991 R# 11111 Victor
R#: 6 21/08/2021 13:30: [PA]

- Click [Query] button for searching the POS report.

5. SIGN IN ON SALES MANAGEMENT

This menu is used to make receipts, refund and check the sales reports to login in sales Management, use:

- a) User Id + [Enter] or [Sales]
- b) Password + [Enter] or [Sales]

After logging in, the interface below appears:

1) Registering an Item.

Register the product you want to sell

2) How to do it.

- a) Scan Registration: Register product
- b) Direct registration: Register an item by typing numbers of barcode attached on item.
- c) Barcode numbers and click [Enter] or [PLU].
- d) Search an Item: Register an item by searching it.

3) The others.

- If you register a new one, its quantity will be 1.
- You cannot register an item if there is no quantity of items.

5.1. Search an item registered

In item Management, you have now seen how to create an item. Below is a guide on how to search an item once you are going to sell it. To search an item, you click on **[Search item]**. Then the screen below appears:

Explanation

- 1) Represents the search Engine
- 2) [QUERY] used to search an item
- 3) Already registered items

4) Program information.

Register the product for sale.

5) How to do it.

- a) At the Sale Management screen, click [Search Item].
- b) Type the Item code (all or part of the code) or name of an item you want to search and press the enter key on the keyboard or click the [QUERY] button.
- c) Select an item you want to register as sale item.

6) The others.

You should type at least three letters in search engine.

5.2. Changing the Unit Price

The screenshot shows a POS system window titled 'MainWindow'. At the top, it displays the date '20200104', user '11111 daniel', and time '06-01-2020 13:51:07'. Below this is a 'Sales Item' table with columns 'No', 'Price', 'Qty', and 'Amount'. The first row shows 'Pure Water' with a quantity of 5 and an amount of 7,500.00. Below the table, there are several empty rows and a 'Total:' label with the value '7,500.00'. A warning icon and the text 'Register the Item' are visible. At the bottom, there is a numeric keypad with buttons for digits 0-9, '00', '000', 'Backspace', 'Clear', and 'Enter'. The keypad is currently displaying '000'.

No	Price	Qty	Amount
1	1,500.00	5	7,500.00
2			
3			
4			
5			
Total:			7,500.00

1) Program information.

Change the number of sale item.

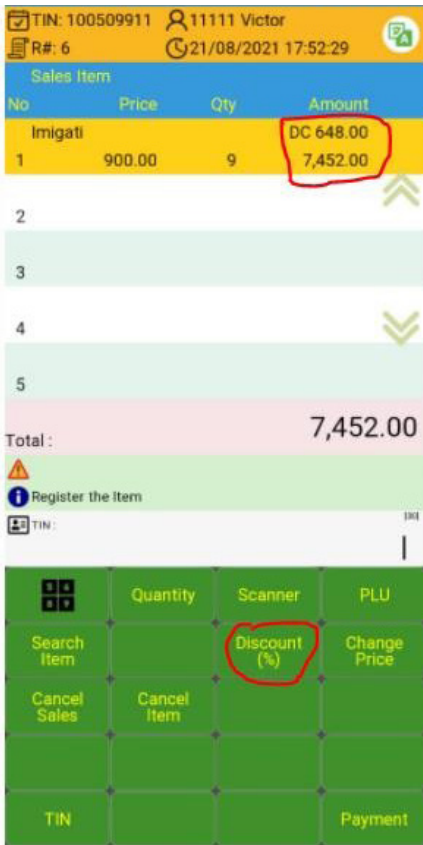

2) How to do it.

Click the item of which quantity you want to change. Type the new number and click [Quantity].

3) The others.

Quantity number change is only available from 1 to 999.

5.3. Using Discount (%)

1) Program information.

Sell an item with discount (%) you set

2) How to do it.

- Click the function key expansion button.
- Click the item you want to discount. Type discount rate figures and click [Discount (%)].
- If you want to cancel discount, Click "0" and [Discount (%)]

3) The others.

Maximum discount rate is 99%.

5.4. Change the sale price
